

This is an Aerial Picture of our Nursery at 1435 Independence Ave., Waterloo, Iowa. We also operate 35 acres near Dunkerton, Iowa, where we grow thousands of Evergreens, Shade and Ornamental Trees, Shrubs, Strawberry and Raspberry plants. Many of these trees and plants will be ready for planting this spring. While we have the largest stock we have ever had, we advise you to look this catalog over and select the item or items you will want and need for spring planting. Then send us your order as soon as you can and we will reserve the stock until Planting time. Or you can phone the order to us, or you may come to the Nursery for it, when you are ready to plant. Either way you may send payment now or pay for the order when it is delivered. We will be glad to help you with your Planting Problems.

MEYERS Dwarf Bridal Wreath

MEYER NANA SPIREA

MEYERS NURSERY'S NEW INTRODUCTION. — Mr. Meyers has been working with Meyer Spirea for 30 years, knowing that the home owner needed an upright growing shrub without the faults of Bridal Wreath. Meyer is a good upright growing shrub and does not droop like the Bridal Wreath, and is much lower growing. Meyer Spirea will grow to a height of about 4 feet at maturity. When it is in full bloom, it looks like a bank of snow. It blooms from the ground to its rounding top. Meyer Spirea blooms a little later than Bridal Wreath and it blooms on the new wood as well as the old wood, while Bridal Wreath only blooms on the new wood. It is extremely hardy, and will grow on any type of soil and Shady as well as Sunny place. The foliage is dense, and it leafs completely to the ground, so it will make a wonderful Hedge, as well as a good foundation shrub, needing very little trimming, if any. The picture you see at the top, was taken when the shrub was 14 years old. This row still is growing in our Nursery and is 20 years old this Spring. The upright growth is about the same. Mr. Meyers knows you will find the Meyer Spirea a good Dwarf Shrub for your yard.

Our Nursery is still at the same location — 1435 Independence Avenue, just East of St. Francis Hospital. Although the Highway is now 281 instead of Highway 20.

LANDSCAPE SERVICE

We will be glad to help you plan all kinds of landscape work, and give free estimates on any work you may want done.

GUARANTEE AND CONDITIONS

We are careful to keep our varieties true to name and will replace any portion of the stock that may prove otherwise, or refund the price paid for such portions. It is agreed that the original price shall be the maximum damages the purchaser is entitled to. Any flowering Shrub, Shade Tree, Fruit Tree, and Evergreens, failing to start growth with proper care and watering by the purchaser, will be replaced at no cost to the purchaser if reported to the Meyers Nursery by September 1st and accompanied by the sales slip and the stock has been paid for in full. This guarantee does not apply to shipping charges or planting charges.

These prices are for delivery at the Nursery or to your residence in Waterloo, Cedar Falls, Washburn or Evansdale. Out of city orders will be delivered F.O.B. to post office, express, and freight and truck line terminals.

Twenty-five cents delivery charge will be made on all orders less than \$2.00.

TERMS OF PAYMENT are cash on or before delivery of the stock, unless previously otherwise agreed upon. Remittance may be by check or any convenient form, payable to Meyers Nursery.

Nursery stock sold by Meyers Nursery is inspected by State Inspector 2 times or more a year.

Specimen Evergreens

ARBORVITAE

American, Thuja Occidentalis — A selected dark green, broadly pyramidal form grown from cuttings. It is the hardiest and most drought-resistant Arborvitae.

Globe — 2½ to 4 feet. A dwarf form which makes compact globes without trimming.

Pyramidal — 15 to 20 feet. Grows in columnar form with shearing. Brighter and darker green than the common Arborvitae. Much used in entrance, foundation plantings.

Siberian — 10 to 15 feet. One of the hardiest of all the Arborvitae, very compact, broadly conical in form and with dense dark green foliage.

PINE

Mugho, Dwarf Mountain Pine — 3 to 5 feet. This makes a compact dome-shaped bush broader than high. Size apply to width rather than height.

White, P. Strobus — 60 to 100 feet the softest foliage of the pines. Endures some shade and is the longest lived and largest growing pine.

Austrian — 25 to 30 feet. Bright green at all times and endures city conditions exceptionally well.

FIRS

Balsam Fir — Beautiful, heavy, lustrous deep green foliage. Fine for ornamental planting and for "living Christmas trees." Also a good windbreak tree.

Concolor Fir — Long graceful needles, varying in color from light green to gray-blue. Tree grows compact and shapely.

Douglas Fir — A hardy, quick growing, drought resisting deep green tree. Ideal to use as an ornamental or wind-break tree.

SPRUCE

Black Hills — 50 to 70 feet. A native of the Black Hills. It does very well over a wide range and makes the finest specimens of all spruce.

Colorado Blue — Selected Blue Specimens or Shiners.

Norway Spruce — A rapid growing, thrifty Evergreen with wide adaptability as to soils and locations.

JUNIPER

Chinensis, Chinese Juniper — 20 feet. Resembles Red Cedar. Does not get red in winter.

Cannarti J. virginia cannarti — 15 to 20 feet. A grafted form, clear green throughout the year. Needs shearing to make a close, regular pyramid. Unexcelled year round.

Dundee — A grafted narrow pyramidal form with compact regular growth without shearing.

Plumosa, Andorra Juniper — 1½ feet. A rich, bright green in spring and summer, and attractive purplish bronze in winter.

Pfitzer — 5 to 6 feet. A dwarf variety of the Chinese Juniper. The foliage is bluish-green and the branches grow out horizontally from the stem.

Sabina, Savin Juniper — 4 to 5 feet. A bushy little tree with semi-erect branches and clear green foliage.

Virginia — 25 to 30 feet. Sheared specimens of our native Red Cedar. Splendid blue or green summer coloring, purplish-red in winter. Thrives in poor dry soils.

YEW S

Japanese — Japanese Yew, spreading **T. cuspidata** — 4 to 6 feet. A spreading irregular bush form. Can be kept low by shearing.

Japanese Yew, Upright T. capitata — 8-12 feet. Broady pyramid. May be sheared into any for .

for WINDBREAKS and GROVE PLANTINGS

Break the cold of those freezing Winter winds. Plant a windbreak. Your home will be easier to heat, more comfortable. Your livestock will winter better, put on cheaper gains for you, when in the protection of a good windbreak. Every farm home should have the protection and beautification provided by a wind-break. Plant your this spring.

Windbreak Evergreens

Prices per each are for transplanted trees with bare roots. Ball and Burlapped trees are priced below.

... Plant MEYERS FLOWERING SHRUBS ...

Pink Flowering Almond — 4 to 6 feet. Large, double pink flowers before the leaves.

Barberry, Green Leaf (Thunberg's Japanese) — Ideal for border and low foundation planting. Makes a low, dense, rounded bush 3 feet tall and just as wide. Grows in sun or partial shade. The foliage colors a beautiful bronzy-red in the fall, with bright red berries.

Red Leaved Barberry — 3 to 6 feet. A form with purplish red foliage all summer if in the sun.

Cotoneaster Acutifolia Quinceberry — 5 to 8 feet. Small plossy, dark green leaves with brilliant fall coloring. Splendid hedge plant.

Gold Twig Dogwood — 6 to 8 feet. Highly decorative with golden yellow bark in winter.

Dogwood, Red-Twigged — 6 to 8 feet. Good foliage coloring red in fall. Bright red bark in winter.

Dogwood Elegantissima — 6 feet. Silver edging on the leaves makes a pleasing contrast to other shrubs.

Euonymus alatus — Winged Wahoo — 6 to 10 feet. Broad corky wings on the twigs, red berries and brilliant at all seasons. Unexcelled for specimens.

Forsythia intermedia, Yellow Bells — 6 to 8 feet. Arching branches. Blooms very early. Branches may be forced indoors.

High Bush Cranberry — 6 to 10 feet. The fruiting form of the common Snowball. Bright scarlet berries in the fall.

S60 Hydrangea, P.G. — At first the coneshaped flowers are white, then turn pink and bronze. When cut they last for many weeks inside. It thrives in partial shade. Grows 4 to 6 feet tall and is in bloom from mid-summer to frost.

Honeysuckle Zabelli — 10 to 12 feet. Upright growing dark green foliage, rosy red flowers and bright red fruit. One of the best of all honeysuckles.

Honeysuckle Tartarian — 6 to 8 feet. Upright. Pink or white flowers, red berries.

Lilac, Old-fashioned purple — large very attractive, pleasing fragrant clusters in May. Most popular and loved lilac of them all. Hardy and vigorous.

Meyers Dwarf Bridal Wreath — This shrub was developed by the Meyers Nursery, and after 30 years test we know that it is definitely a dwarf shrub which attains a mature height of about 3½ feet.

Dwarf Bridal Wreath — (Meyeri Nana). A handsome dwarf version of Bridal Wreath. Blossoms are somewhat larger and come a little later in the season. Graceful, arching branches. Hardy.

12 to 15 inch Plants

Each \$1.50; 3 or more, \$1.35 each
Postpaid

Rothomagensis Lilac — Many large blooms; beautiful reddish-lilac. Very Hardy.

Aurea. Golden Mockorange — 5 feet. A dwarf compact variety with yellow foliage.

Coronarius, Sweet Mockorange — 8 to 10 feet. The old fashioned kind.

Virginialis, Virginal Mockorange — 4 to 5 feet. Large, semi-double, fragrant, quite continuous.

Ninebark Golden Leaf — 4 to 5 feet. A very hardy shrub having white flowers in May and June. Very attractive yellow foliage.

Prunus-cestana, Hansen's Purple Leaved Plum — 6 to 8 feet. Bright reddish-purple foliage throughout the season. Purplish-pink blossoms purple fruit. The best red-leaved shrub.

Triloba — Double Flowering Plum — 7 to 8 feet. Clear pink, double rose-like flowers in April and May. Much admired by everyone.

Quince — Japanese Flowering, Cydonia japonica — 4 to 6 feet. Scarlet flowers before the glossy green leaves.

Snowberry — Red, Indian Current — 3 to 5 feet. Endures densest shade and dry soil. Covered with small red berries in early winter.

Snowberry, White — 3 to 5 feet. Endures much shade. Large white berries in fall.

Spirea — Anthony Waterer — 2 to 3 feet. Very compact. Pink flowers all summer.

Billardi — 4 to 6 feet. Bright pink fluffy flowers in spikes July to October. Upright grower.

Spirea, Froebelli — 3 to 4 feet. Resembles Anthony Waterer. More vigorous. Purplish-red fall foliage.

Spirea, Thunbergi — 3 to 4 feet. Slender, arching branches and fine feathery light green foliage. White.

Multiflora Rose — Grows bushy, very hardy. Covered with small white rose in early summer.

Vanhouttei Vanhoutte Spirea — 5 to 7 feet. Commonly called Bridal Wreath. White flowers in May. Graceful habit. Thrives almost everywhere.

Tamarix pen randa, Blue-Green Tamarix — 4 to 8 feet. Fine feathery blue-green foliage. Racemes of delicate pink flowers.

Weigelia — Vaniceki Red Flowered Weigelia — 4 to 6 feet. Rich reddish-purple flowers in June to August.

Rosea, Pink Weigelia — 4 to 6 feet. Mass of pink in June. For protected places.

Privet (Amoor River) — This is the best of the hedge plants. Can be trimmed to any height, very dense, dark green foliage.

FRENCH LILACS

MADAM CASIMIR PERIER, Double White.

MONTAIGNE, Double Mauve Pink

CHARLES JOLY, Double Red

BELLE DE NANCY — Double-flowered, color light purple, bluish tinge; late with large trusses.

MME. LEMOINE — Double large white flowers in immense clusters.

LUDWIG — SPAETH — Single. Very attractive dark red flowers. One of the best varieties.

18-24 inches Each \$1.75; 3 for \$1.65

2-3 feet Each \$2.20; 3 for \$2.05

3-4 feet Each \$2.95; 3 for \$2.60

CLIMBING VINES

CLEMATIS — Large Flowering

All like cool, well drained, but moist limestone soil with sun for the tops.

Jackmanni — Large, violet purple.

Clematis Henryi — Immense flowers of lustrous white.

Clematis Andre — Handsome blooms of soft velvety-red.

Clematis Ramona — Exquisite lavender-blue flowers.

3 inch pot plants, above kinds, Each \$1.85

Engelman Ivy — Hardest vine clinging to smooth walls.

Size No. 1, Each \$.85; 2 for \$1.50

Bittersweet, American, Celastrus scandens — Well known native twining vine; large red and orange berries.

Size No. 1, Each \$1.35 2 for \$2.55

Vetchii, Boston Ivy — Very refined, but less hardy than Englemanni. Two year.

Size No. 1, Each \$1.25

Heckrotti, Honeysuckle — Large fragrant, flame-red trumpets, lined with gold are produced in immense showy clusters; blooming from early summer until frost. The blooms are produced the same year the plant is set out. Foliage, dark blue-green, disease and pest free. Hardy.

Each — \$1.25

PURPLE WISTERIA — \$1.15

EVERGREEN VINE (Euonymus Vegefus) - 2 year — \$1.75

RULES FOR A BEAUTIFUL YARD

1. Buy Nursery Stock from a reliable nursery.
2. Follow planting instructions given by the nursery.
3. Water plants thoroughly (2 feet deep for shrubs, and trees up to 8 to 10 feet high, larger trees 3 to 4 feet deep.)
4. Cultivate around shrubs and trees.
5. Fertilize 2 times yearly for most stock.
6. Trim as needed.
7. Spray as needed.

The Meyers Nursery will be glad to help you keep the above Rules by answering any questions that you may have. Just Phone ADams 2-3954 with your problems.

Hardy Perennials

PRICES, UNLESS OTHERWISE NOTED OF PERENNIAL PLANTS

Each 60 cents 3 for \$1.65 10 for \$5.00

ASTERS, Hardy — Red, Pink, White, Blue 50 cents each
— **Hardy Ageratum** — Lovely light purple-blue flowers of fluffy texture from August until frost; fine for cutting. 12-18 inches.

AGUILLEGIA, COLUMBINES — Not particular as to soil, endures some shade. Red pink, white yellow.

CREeping PHLOX (subulata) — These grow scarcely four inches tall, with moss-like foliage that stays green all winter. In the spring, completely covered with flowers. Thrives in sun or part shade.

BLUE, PINK RED WHITE

CARNATION — Dwarf 15 inch; compact, double flowers. State variety.

— **Red King** — Bright red.

— **Pink Beauty** — Soft Pink.

— **Puff Ball** — White as snow.

CANTERBURY BELLS — Big, bell-shaped flowers loading the 2 foot spikes. Blooms in June. Blue, Rose and Pink.

DELPHINIUM, Pacific Hybrids — The flowers are immense, 2½ to 3 inches across. The colors range from pure white, sky-blue to deepest indigo-blue, purples, violets, and those exquisite shades of orchid-pink. The plants grow 4 to 7 feet tall with flower trusses often 3 to 4 feet long.

— **Bellamora** — 2 to 4 foot. Like above but dark blue all summer.

— **Belladonna** — 2-4 foot. Light blue, all summer.

— **Chinese Blue** — 1 to 2 foot. Finely cut foliage. Gentian blue, all summer.

— **Delphinium, Larkspur** — All like limestone soil and good drainage.

GAILLARDIA, Blanket Flower — 1 to 2 foot. Flowers have red, yellow, and orange blended.

— **Gypsophila (Baby Breath)** — 2 to 3 foot. Great masses of small white flowers in July-August. Lovely in the garden and fine for cutting.

HOLLYHOCKS — 6 foot towers of blooms, with big double flowers all summer. Red, Pink or Yellow. State color— 10 for \$4.50

LYCHNIS CHALCEDONICA (Maltese Cross) — Very fine durable, old-fashioned flower with dense heads flashy scarlet throughout midsummer.

LUPINUS polyphyllus (Lupine) — Extremely handsome perennial with beautiful palmate foliage and long spikes of brilliantly colored sweet pea-shaped. Plant in well-drained spots with soil that is not too rich and free from lime. Blue, Rose, Red and Mixed shades.

LINUM PERENE, HARDY FLAX — 1 to 2 foot. Light, graceful foliage and stems. Pale blue flowers each morning. June-September if cut down occasionally.

— **Morden Lythrum** — It's beautiful — it's hardy — it's grand. Throughout the summer there is a continuous succession of lovely red-carmine spikes that are ideal for cutting. Originating in Canada, it is completely hardy, thrives everywhere. Plant grows 3 feet or more tall — Each 85 cents.

MONARDA — (Horemint) — Fringed flower heads of blazing scarlet appear on 20 to 30 inch stems in July and August; foliage somewhat aromatic.

PERENNIAL SWEET PEA — (Lathyrus) — Hardy creeper or climber, with lovely clustered flowers, pink to rose-red, throughout the summer. Fine for cutting.

— **Platycodon grandiflora, Balloon Flower** — 2 to 3 foot. June to October. Large ball-shaped flowers either blue, white or pink. Inflated balloon like buds.

— **Oriental Poppies** — 2 foot. Large orange-scarlet flowers with black centers. May and June.

PYRETHRUM, PERSION OR PAINTED DAISY — 2 to 3 feet tall. All colors, white to deep red.

SHASTA DAISY — Early glistening white flowers in countless numbers during June, are a beautiful sight in the garden; grand in bouquets. Mature growth about 15 inches tall.

— **Sedum Spetabile** — Most notable of the Erect Sedums, producing a mound of excellent light green foliage, topped with immense heads of handsome rose-colored flowers in late summer and fall.

STOKESIA (Stokes' Aster) — We highly recommend this as a border plant. Beautiful aster-flowers of lilac-blue are in abundance nearly all summer.

SWEET WILLIAM — These brilliantly colored old-fashioned garden plants are as indispensable to day as they were 100 years ago.

— **Pink Beauty** — A sparkling crushed strawberry-pink.

— **Scarlet Beauty** — A vivid scarlet. Very choice and effective. 1½ foot.

YUCCA filamentosa, Adam's Needle — 4 to 6 foot. Tall pyramidal clusters of large creamy flowers; June and July. Heavy 3-year plants — \$1.00.

CHRYSANthemUM

Each 85 cents 3 for \$2.40 10 for \$7.50

ALGONQUIN — Fine, brilliant, double yellow. Mid-September 18 inches.

AMBER GLOW — 2½ inch flower of soft salmon or peach pink. Flowers very profusely. Blooms October.

AVALANCHE — Large well formed double white flowers in great quantities. 2½ to 3 feet. Late September.

BURGUNDY — Rich deep red. Fully double. Perfect form. Early October. 2½ foot.

HARBINGER — Double 2½ to 3-inch flowers of golden bronze. Grows 27 inches tall.

RED VELVET — Double 3-inch flowers of crimson. Grows 24 inches tall.

LAVENDER LADY — A lovely true lavender, no trace of mauve, purple, or magenta appears under any light condition. Flowers are full, double, 3 inches across. Early October.

HEATHERBLOOM — D. (KRAUS) — Very double; heather-pink, center of shaded rose red with gold tipping. An outstanding flower.

OLIVE LONGLAND — D. (KRAUS) — Three inch apricot toned salmon-pink. Blooms freely the best of the pastel shades.

SEPTEMBER DAWN — Gorgeous deep pink of an autumn sunrise. Large double well formed flowers of 3½ inches.

ARAPAHOE — Huge rich red flowers. Stems 30 to 36 inches high. University of Nebraska origination.

CECIL BEED — Finest early pink mum.

MEYERS NURSERY'S RULES FOR A BEAUTIFUL YARD

1. Buy Nursery Stock from a Reliable Nursery.
2. Follow Planting Instructions given by the Nursery.
3. Water Plants Thoroughly (2 ft. deep for Shrubs, and Trees up to 8-10 ft. high, Larger Trees 3-4 ft. deep).
4. Cultivate around Shrubs and Trees.
5. Fertilize 2 times Yearly for most stock.
6. Trim as needed.
7. Spray as needed.

The Meyers Nursery will be glad to help you keep the above Rules by answering any questions that you may have. Just Phone ADams 2-3954 with your problems.

... Plant MEYERS SHADE TREES ...

Ash Green — A fast growing shade tree. Not easily broken by storms or likely to be injured by pests.

Birch, Cutleaved — Weeping — 30 to 40 feet. A very attractive ornamental tree with white bark and fine drooping branches.

Birch, European White — 30 to 40 feet. A hardy attractive tree with white bark.

Ash, European Mountain — A valuable tree on a small lawn; scarlet berries.

Elm, American White — 80 to 100 feet. One of the best of all shade trees. Thrives in almost all situations.

Elm, Chinese — Extremely rapid and dense growing. Suitable for dry soils. Twigs fine and much bent. Leaves small and remain green late. Cut back heavily in transplanting.

Hackberry — A strong, rapid growing shade tree.

Locust, Moraine — 50 feet. A new patented tree completely seedless and thornless with a pleasing vase shape similar to the elm. The small compound leaves make a filtered shade.

FLOWERING CRABS

Radiant Crab — This new introduction promises to be a valuable ornamental crab. A very compact, symmetrical growing tree. Blooms red and fruit is small, bright red.

5-6 ft.Each \$5.75

Eley Flowering Crab — *M. eleyi* — Purplish-red foliage through the season. Red flowers and fruit.

Hopa, Pink Flowering Crab — 24-25 feet a rapid upright growing kind with large pink flowers, new growth and wood.

4-5 ft.Each \$2.65

5-6 ft.Each \$3.25

6-8 ft.Each \$4.50

New Almey Flowering Crab — Breath taking clouds of dollar size blooms of glistening fiery crimson! Developed in Canada, it's now the most colorful flowering crab in America. From a distance the tree looks like a mass of flame.

5-6 ft.Each \$3.75

6-8 ft.Each \$5.00

Strathmore, 20 feet — Upright habit of growth. Flowers red in the bud opening to pink with a mauve shading. Reddish green foliage. Dark red fruit.

4-5 ft.Each \$3.95

Lombardy Poplar — *Populus nigra italica* — 50 to 70 feet. The well known very columnar poplar widely planted for tall screens, accents and hedges along drives. The dense upright branches form a slender tapering tree from the ground to a slightly pointed top.

Linden — *American Tilia Americana* — 60 to 80 feet. Large leaves, splendid shade tree.

Maple — **Schwedler, Purple Norway** — 40 to 50 feet. Large, bright purplish-red foliage in spring, turning to a bronzy-green in summer and yellow in the fall. Budded on common Norway Maple. One of the most colorful shade trees.

Maple — **Hard or Sugar** — One of the best shade trees which colors brilliantly in the fall.

MAPLE — **Silver** — A beautiful fast growing Maple, with compact, sturdy branches and large, dark green leaves. One of the best.

Maple — **Fassons Red** — In the spring the foliage is a rich red and carries this deep red foliage throughout the entire season.

Red Oak Pin — *Quercus Borealis* — 60 to 80 feet. One of the faster growing trees of the upland oaks.

Oak Pin — *Quercus Palustris* — 75 to 90 feet. Grows rapidly in moist soil. Leaves are retained and color splendidly. Transplants easier than most oaks. Lower branches somewhat drooping.

Willow — **Niobe Willow** — 40 to 50 feet. Golden yellow bark, very long penulous branches. Strikingly beautiful as a specimen or at the waterside. Very rapid grower. Plant early.

MEYERS HARDY FRUIT FOR IOWA . . .

APPLES

EARLY VARIETIES

Beacon—This new apple originated at the Minnesota Fruit Experiment Station. The fruit is large, solid bright red of very fine quality. It ripens in August.

Yellow Transparent—The favorite early apple. Ripens in July. Bears young, heavily and every year.

Red Duchess—Top of the list for summer cooking apples.

FALL VARIETIES

Wealthy—The grand fall apple that does well everywhere. Large size fruit, striped red, tender, juicy, excellent quality.

Fameuse (Snow)—Crimson striped apple, with pure white flesh, juicy and of highest quality with crisp flesh.

Haralson—Large good red apple that keeps all winter. Heavy bearer, very hardy.

Fireside—A hardy and productive tree of the Delicious type, equal to it in quality. Suitable for northern sections.

Red Delicious—This is the original Delicious which originated in Iowa and has been planted from coast to coast for its superb quality and mild juicy flavor.

McIntosh, Solid Red—This large red apple is popular in the east, and also in sections of other states. Flesh snow-white of very high quality.

Yellow Delicious—This is now the most popular yellow apple in all America. It bears young and heavily.

Min-Jon—The brand new, four star "Minnesota — Jonathon," originated by the Minnesota State Breeding Farm. It produces beautiful, luscious apples way up to the Canadian line. Dark shiny red all over, with yellow crisp flesh.

CRAB VARIETIES

Whitney—Always called a Crab, but as large as some apples. Red striped fruit of excellent flavor, not tart. Makes delicious pickles and butter.

PEARS

Bartlett—Our most popular summer Pear. Fruit is large, yellow with blush, juicy sweet, high quality.

Lincoln—Early fall pear. A good grower and producing good crops of fruit delicious for both canning and eating.

Parker—A new summer pear ripening a few days after Bartlett. Tested in Northern Iowa, it is hardier than Bartlett. Good bearer. Highest quality. Blight resistant.

Patten—Originating in Iowa, this is a very hardy Pear which can be planted in cold sections like northern Iowa, Minnesota, etc. Ripens in August. The fruit is large, yellow with blush, juicy sweet, luscious flavor. Good bearer.

PLUMS

La Crescent—Outstanding yellow plum. The big, tender, sweet fruit makes delicious preserves and pies.

Pipestone—The grand big new purplish-red plum from Minnesota, as large as tropical fruit but all hardy. Finest quality; excellent for canning or eating fresh. Bears young and heavily; ripens in August.

Red Coat—Big prune-shaped plums of vivid scarlet; rich, juicy, meaty flesh of delicious flavor. Entirely freestone.

Stanley—A new prune-type plum from New York that is rapidly becoming the most popular of all plums. Large, dark-blue, prune-shaped fruits. The rich yellow flesh is firm, sweet and delicious flavor. Exceptionally fine for eating fresh and canning. A heavy regular bearer. Ripens in early September.

Superior—A plum that should be in every planting. Immense fruit of clear rich red firm meaty flesh of rich, delicious flavor. Can be peeled as you would a peach. Ripens early in August. A good pollenizer for other plums.

Waneta—Juicy, medium sized fruit of rich, fine flavor; dark purple skin and flesh. Excellent for canning. Bears enormous crops.

PRICE OF PLUM TREES

4 to 5 feet	Each \$2.45	3 for \$7.00
5 to 6 feet	Each 2.60	3 for 7.50

PEACHES

Peaches in Central Iowa should be planted where they will have as much winter protection as possible.

Marquette—Rivaling the Alberta, this peach is a few days earlier and hardier.

Polly—Claimed by some as the hardiest peach. A large blushed, free stone, ripening just before the Alberta. White flesh.

5 to 6 feet	Each \$2.50	3 for \$7.00
-------------	------------------	--------------

GRAPES

CONCORD	— Best known black grape. Heavy plants.
NIAGARA	— Large, white.
FREDONIA	— Black, two weeks earlier than Worden.

Raspberries	 1-2 years	3x 6 ft.	2,420
Strawberries	 1 years	1x 2 ft.	21,780

Here is a 2, 4-D in a penetrating oily emulsion that cuts through waxy leaf surfaces of weeds in minutes . . . dooms them, roots and all! Kills dandelions, plantains, chickweeds, docks, thistles, mustards, poison ivy, poison oak and many others. Does not harm common lawn grasses. Safe to reseed in 5 weeks.

MEYERS Selection of Vegetable Seeds

We are stocking a complete assortment of vegetables and annual and perennial flower seeds in packets and cartons. The cartons contain about enough seeds for one planting the ordinary garden. Peas, beans and sweet corn are packed in cartons and sell at 20 cents per carton. Most other vegetables and flowers sell at 10 and 15 cents per packet. These seeds are furnished to us by the NORTHRUP KING CO. which is one of the largest growers of seeds in the country. All of the varieties we stock are adapted to this vicinity and are the best strains to be had.

Besides the seeds in packets, we are offering the following seeds in bulk. These seeds are available at the nursery or we will send them to you postpaid anywhere in Iowa at these prices.

MEYERS NURSERY FULL LINE OF GRASS SEEDS

MEYERS NURSERY offers TOP QUALITY GRASS SEEDS At Prices You CAN Afford to Pay. We have been in the Grass Seed business for some 40 years, and over that time have come up with a seed formula, we feel is suited to this climate and soil condition. This formula is high in Blue Grass seed, for that is the grass you will want for permanent lawn. MEYERS believes you need Perennial Rye in sufficient quantity to shade your ground and to control the sprouting of weed seeds until the Blue Grass has a good start. We add other grasses for the hard to start places, and for additional weed and shade control. There are no bunch grasses in our mixture. We will be glad to help you with your lawn problems. With our mixture on a new lawn you need only 1 pound of seed for 300 square feet. MEYERS recommends you use ARMOURS LAWN and GARDEN FOOD at the rate of 4 pounds to 100 square feet. To find the number of square feet in your lawn, measure the length and width and multiply these two figures and divide by 100 to get the number of square feet. EXAMPLE: 50 times 100 equals 5,000 divide this by 100 which equals 50 square feet. GOOD SEED MAKES GOOD LAWNS.

MEYERS LAWN MIXTURE contains 55% blue grass recommended by "Iowa State University" and 45% other fast growing PERENNIAL grasses.
